Classical music lovers all over the world will know her name: violinist Isabelle van Keulen is a soloist who, for many years now, has built a strong career worldwide. She plays with all the important orchestra's, performs in the famous concert halls and keeps on recording extraordinary CD's of a very high level. Take for instance her latest release of December 2012 with music of Prokofiev together with her duo partner Ronald Brautigam. But now she dares to do something totally different! She wanted to do this for many years and now her dream can come true to play and record the music of Astor Piazzolla. This music she has loved since she was a child of six years old. With her new ensemble she also plays in concert halls and she recorded this beloved tango music on SACD and on film (on DVD and BluRay) in January 2013 in Mechelen (Belgium). In a bonus documentary that goes with the BluRay, Isabelle and her colleagues Ulrike Payer, Christian Gerber and Rüdiger Ludwig tell about this music, about the tango technique and about their instruments. This not only gives us insight in Piazzolla himself but also tells more about the typical tango sound and how this is produced and why, according to the musicians, this music is so moving and goes straight to the heart!

This Super Audio CD will move a lot of people all over the world because of its directness and the emotions it evokes. One of our highlights of this year on Challenge Classics!
