RACHMANINOV: Symphony No. 3

VOX-NX-3028CD

Rachmaninov's *Symphony No. 3 in A minor* is a radiant synthesis of the composer's early and later periods. Poorly received at the time, its lyricism and colour are pervasive and it has duly taken its place in the repertoire, not least because of its warm-hearted voluptuousness, rhythmic vitality and inventive structure. Written in 1891, a single movement is all that exists of the *Symphony in D minor 'Youth'*, while *The Rock* is an early example of Rachmaninov's powers of descriptive intensity. These acclaimed Vox recordings conducted by Leonard Slatkin were originally issued in 1979 and 1982.

The Elite Recordings for Vox by legendary producers Marc Aubort and Joanna Nickrenz are considered by audiophiles to be amongst the finest sounding examples of orchestral recordings
